WESTVALE TANK REPAIRS AND PAINTING

WORK STATUS UPDATE

The Onondaga County Water Authority (OCWA) is making repairs to and recoating the interior and exterior of one of three water tanks that serve the Westvale area. The tank is located off of Southview Road in the Westvale area of the Town of Geddes. The tank is now out of service and the repairs are in process. Worldwide Industries Corporation is the contractor completing the repairs and recoating project. They are now abrasive blasting the tank to remove the old paint prior to recoating the tank. The two other tanks will remain in service and will provide normal pressures and service to the area. The work will be ongoing through September and is anticipated to be completed by the end of September or early October 2010.
