ANNUAL INVESTMENT REPORT

ONONDAGA COUNTY WATER AUTHORITY

INVESTMENT POLICY AND GUIDELINES

I. Governing Authority

Legality

The investment program shall be operated in conformance with federal, state, and other legal requirements, including Article V and Article VI of the Revenue Bond Resolution, adopted March 14, 2001. Investment of any tax exempt borrowing proceeds and any related debt service funds will comply with the “arbitrage” restrictions in all applicable Internal Revenue Codes

II. Scope

These guidelines shall govern the investment, monitoring and reporting of funds of the Onondaga County Water Authority (the Authority). For purposes of these guidelines, funds of the Authority are all monies and other financial resources available for investment by the Authority on its own behalf or on behalf of any other entity or individual. All such monies shall be invested at all times to the fullest extent practicable, and in accordance with the requirements and restrictions set forth in these guidelines.

III. General Objectives

The primary objectives, in priority order, of investment activities shall be safety, liquidity, and yield:

1. *Safety*

Safety of principal is the foremost objective of the investment program. Investments shall be undertaken in a manner that seeks to ensure the preservation of capital in the overall portfolio. The objective will be to mitigate credit risk and interest rate risk.

a. Credit Risk

The Authority will minimize credit risk, which is the risk of loss due to the failure of the security issuer or backer, by:

- Limiting investments to the types of securities listed in Section VII of this Investment Policy
- Pre-qualifying the financial institutions, broker/dealers, intermediaries, and advisers with which the Authority will do business in accordance with Section V
- Diversifying the investment portfolio so that the impact of potential losses from any one type of security or from any one individual issuer will be minimized.

b. Interest Rate Risk

The Authority will minimize interest rate risk, which is the risk that the market value of securities in the portfolio will fall due to changes in market interest rates, by:

- Structuring the investment portfolio so that securities mature to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities on the open market prior to maturity

- Investing operating funds primarily in shorter-term securities, money market mutual funds, or similar investment pools and limiting the average maturity of the portfolio in accordance with this policy (see section VIII).

2. *Liquidity*

The investment portfolio shall remain sufficiently liquid to meet all operating requirements that may be reasonably anticipated. This is accomplished by structuring the portfolio so that securities mature concurrent with cash needs to meet anticipated demands (static liquidity). Furthermore, since all possible cash demands cannot be anticipated, the portfolio should consist largely of securities with active secondary or resale markets (dynamic liquidity). Alternatively, a portion of the portfolio may be placed in money market mutual funds or local government investment pools which offer same-day liquidity for short-term funds.

3. *Yield*

The investment portfolio shall be designed with the objective of attaining a market rate of return throughout budgetary and economic cycles, taking into account the investment risk constraints and liquidity needs. Return on investment is of secondary importance compared to the safety and liquidity objectives described above. The core of investments are limited to relatively low risk securities in anticipation of earning a fair return relative to the risk being assumed. Securities shall generally be held until maturity with the following exceptions:

- A security with declining credit may be sold early to minimize loss of principal.
- A security swap would improve the quality, yield, or target duration in the portfolio.
- Liquidity needs of the portfolio require that the security be sold.

IV. Standards of Care

1. *Prudence*

The standard of prudence to be used by investment officials shall be the "prudent person" standard and shall be applied in the context of managing an overall portfolio. Investment officers acting in accordance with written procedures and this investment policy and exercising due diligence shall be relieved of personal responsibility for an individual security's credit risk or market price changes, provided deviations from expectations are reported in a timely fashion and the liquidity and the sale of securities are carried out in accordance with the terms of this policy.

The "prudent person" standard states that, "Investments shall be made with judgment and care, under circumstances then prevailing, which persons of prudence, discretion and intelligence exercise in the management of their own affairs, not for speculation, but for investment, considering the probable safety of their capital as well as the probable income to be derived."

2. *Ethics and Conflicts of Interest*

Officers and employees involved in the investment process shall refrain from personal business activity that could conflict with the proper execution and management of the investment program, or that could impair their ability to make impartial decisions. Employees and investment officials shall disclose any material interests in financial institutions with which they conduct business. They shall further disclose any personal financial/investment positions that could be related to the performance of the investment portfolio. Employees and officers shall refrain from undertaking personal investment transactions with the same individual with whom business is conducted on behalf of the Authority.

3. *Delegation of Authority*

Authority to manage internally or delegate the management of the investment program to an external manager is granted to the Manager of Accounting, hereinafter referred to as investment officer. Responsibility for the operation of the investment program is hereby delegated to the investment officer, who shall act in accordance with established written procedures and internal controls for the operation of the investment program consistent with this investment policy. If authority to manage all or part of the investment program is delegated to an external manager, the investment officer is responsible for:

- Periodic investment portfolio reporting;
- Evaluating the performance of the externally managed portfolio;
- Monitoring manager compliance with the investment policy;
- Conveying the investment needs of the Authority to the external manager;
- Developing investment strategy with the external manager.

V. Authorized Financial Institutions, Depositories, and Broker/Dealers

1. *Authorized Financial Institutions, Depositories, and Broker/Dealers*

A list will be maintained of financial institutions and depositories authorized to provide investment services. In addition, a list will be maintained of approved security broker/dealers selected by creditworthiness (e.g., a minimum capital requirement of \$10,000,000 and at least five years of operation). These may include "primary" dealers or regional dealers that qualify under Securities and Exchange Commission (SEC) Rule 15C3-1 (uniform net capital rule).

All financial institutions and broker/dealers who desire to become qualified for investment transactions must supply the following as appropriate:

- Audited financial statements demonstrating compliance with state and federal capital adequacy guidelines
- Proof of National Association of Securities Dealers (NASD) certification (not applicable to Certificate of Deposit counterparties)
- Proof of state registration
- Completed broker/dealer questionnaire (not applicable to Certificate of Deposit counterparties)
- Certification of having read and understood and agreeing to comply with the Authority's investment policy.
- Evidence of adequate insurance coverage.

An annual review of the financial condition and registration of all qualified financial institutions and broker/dealers will be conducted by the investment officer

VI. Safekeeping and Custody

1. *Delivery vs. Payment*

All trades of marketable securities will be executed by delivery vs. payment (DVP) to ensure that securities are deposited in an eligible financial institution prior to the release of funds.

2. *Safekeeping*

Securities will be held by a [centralized] independent third-party custodian selected by the entity as evidenced by safekeeping receipts in the Authority's name. The safekeeping institution shall annually

provide a copy of their most recent report on internal controls (Statement of Auditing Standards No. 70, or SAS 70).

3. *Internal Controls*

The investment officer shall establish a system of internal controls, which shall be documented in writing. The internal controls shall be reviewed by the investment committee, where present, and with the independent auditor. The controls shall be designed to prevent the loss of public funds arising from fraud, employee error, misrepresentation by third parties, unanticipated changes in financial markets, or imprudent actions by employees and officers of the Authority.

2. Collateralization

Where allowed by state law and in accordance with the GFOA Recommended Practices on the Collateralization of Public Deposits, full collateralization will be required on all demand deposit accounts, including checking accounts and non-negotiable certificates of deposit.

VIII. Investment Parameters

1. Diversification

The investments shall be diversified by:

- limiting investments to avoid overconcentration in securities from a specific issuer or business sector (excluding U.S. Treasury securities),
- limiting investment in securities that have higher credit risks,
- investing in securities with varying maturities, and
- continuously investing a portion of the portfolio in readily available funds such as local government investment pools (LGIPs), money market funds or overnight repurchase agreements to ensure that appropriate liquidity is maintained in order to meet ongoing obligations.

Diversification by Type and Issuer:

Security	% Limitation of Total Portfolio
U.S. Treasury	100% of portfolio
U.S. Government Agencies	100% of portfolio 50% in any single Government Sponsored Enterprise
Certificates of Deposit	50% of portfolio 25% per bank
Bankers' Acceptances	50% of portfolio 25% per bank
Commercial Paper and Corporate Notes	50% of portfolio 10% per issuer
State Government Securities	25% of portfolio
Repurchase Agreements	25% of portfolio
Money Market Funds	100% of portfolio

2. Maximum Maturities

To the extent possible, the Authority shall attempt to match its investments with anticipated cash flow requirements. Unless matched to a specific cash flow, the Authority will not directly invest in securities maturing more than five (5) years from the date of purchase or in accordance with state and local statutes and ordinances.

Reserve funds and other funds with longer-term investment horizons may be invested in securities exceeding five (5) years if the maturities of such investments are made to coincide as nearly as practicable with the expected use of funds. The intent to invest in securities with longer maturities shall be disclosed in writing to the Authority Board.

Because of inherent difficulties in accurately forecasting cash flow requirements, a portion of the portfolio should be continuously invested in readily available funds such as local government investment pools, money market funds, or overnight repurchase agreements to ensure that appropriate liquidity is maintained to meet ongoing obligations.

IX. Reporting

1. Methods

The investment officer shall prepare an investment report at least quarterly, including a management summary that provides an analysis of the status of the current investment portfolio and the individual transactions executed over the last quarter. This management summary will be prepared in a manner which will allow the Authority to ascertain whether investment activities during the reporting period have conformed to the investment policy. The report should be provided to the Authority's Executive Director and Board of Directors. The report will include the following:

- Listing of individual securities held at the end of the reporting period.
- Realized and unrealized gains or losses resulting from appreciation or depreciation by listing the cost and market value of securities over one-year duration that are not intended to be held until maturity (in accordance with Governmental Accounting Standards Board (GASB) requirements).
- Average weighted yield to maturity of portfolio on investments as compared to applicable benchmarks.
- Listing of investment by maturity date.
- Percentage of the total portfolio which each type of investment represents.

The Authority shall also prepare and approve an annual investment report which shall include the Authority's investment guidelines as well as additional information required by Public Authorities Law. The annual report shall be submitted to the Onondaga County Executive, Onondaga County's chief fiscal officer and the New York State Department of Audit and Control.

2. Performance Standards

The Authority's cash management portfolio shall be designed with the objective of regularly meeting or exceeding the following performance benchmarks; the average return on three-month U.S. Treasury bills and the WILMINGTON US TREAS MMKT FUND. These indices are benchmarks for lower risk investment transactions and therefore comprise a minimum standard for the portfolio's rate of return.

3. Marking to Market

The market value of the portfolio shall be calculated at least quarterly and a statement of the market

value of the portfolio shall be issued at least quarterly. This will ensure that review of the investment portfolio, in terms of value and price volatility, has been performed consistent with the GFOA Recommended Practice on "Mark-to-Market Practices for State and Local Government Investment Portfolios and Investment Pools." In defining market value, considerations should be given to the GASB Statement 31 pronouncement.

X. Approval of Investment Policy

The investment policy shall be formally approved and adopted by the governing body of the Authority and reviewed annually.

Explanation of Investment Guidelines

The investment guidelines of Onondaga County Water Authority are designed to comply with all legal requirements and to meet the General Objectives as set forth in section III of the guidelines.

The primary objectives of investment activities are, in priority order, safety, liquidity and yield.

Safety – Credit Risk - The Authority is required, by section VII of the guidelines, to invest in low risk obligations, such as: United States Treasury Bills, Direct obligations of Federal Home Loan Mortgage Corporation, Fannie Mae, or the Federal Farm Credit System, obligations that are rated F1 by Fitch (if rated by Fitch), A-1+ by S&P and P-1 by Moody's. (These are the highest short-term ratings given out by those companies) and money market accounts.

Safety – Diversification – The Authority diversifies its investments so that the potential losses from one type of security or one issuer are minimized. The diversification parameters are outlined in section VIII of the guidelines.

Safety – Interest Rate Risk – The Authority will limit interest rate risk by structuring its investment portfolio so that securities mature to meet cash requirements, thereby avoiding the need to sell securities on the open market prior to maturity.

Liquidity – The Authority structures its portfolio so that securities mature concurrent with cash needs. Also, a portion of the portfolio is invested in money market mutual funds so as to have same day liquidity.

Yield – Return on investment is of secondary importance compared to the safety and liquidity objectives described above. Investments are limited to relatively low risk securities in anticipation of earning a fair return relative to the risk being assumed. Securities shall generally be held until maturity.

An investment report shall be prepared at least quarterly. The report will be prepared in a manner which will allow the Authority to ascertain whether investment activities during the reporting period have conformed to the investment policy.

The Authority's cash management portfolio shall be designed with the objective of regularly meeting or exceeding the average return on three-month U.S Treasury bills and a money market account. These are benchmarks for lower risk investments and so comprise a minimum standard for the portfolio's rate of return.

The investment policy shall be formally approved and adopted by the Authority's board of directors and be reviewed annually.
