

OCWA 2015 Water Supply Statement:

PWS ID # NY 3304336

The Onondaga County Water Authority is a public benefit corporation created in 1951 (and began operating in 1955) in accordance with the Public Authorities Law of the State of New York. The Authority was created to finance, construct, operate and maintain a water supply and distribution system for the benefit of the residents in and around Onondaga County. OCWA is one of the 125 largest publicly owned water suppliers in the United States.

The Distribution System Map (found on Page 4) shows the typical service area for each of the three water sources. Wholesale and retail areas within the county are both included. In retail areas the Authority supplies the water, maintains the distribution system and bills the customer directly. In wholesale areas, a municipality or water district buys some or all of its water from the Authority. Wholesale systems maintain their own distribution and customer billing systems. Some key facts about our operation can be found in the OCWA Statistics Table found below:

OCWA Statistics:

For 2015:

Daily Average System Delivery	38.91 Million Gallons per Day
