

# Contaminants Tested for but Not Detected

(Non-Detects Arranged By Source)

<p><b>Synthetic Organic Contaminants</b> (Otisco, Ontario, Skaneateles)</p> <p>Alachlor Aldicarb Aldicarb sulfone Aldicarb sulfoxide Aldrin Atrazine Benzo(a)pyrene Butachlor Carbaryl Carbofuran Chlorodane Dalapon Di(2-ethylhexyl)adipate Dibromochloropropane Dicamba Dieldrin Dinoseb Endrin Ethylene Dibromide Glyphosate Heptachlor Heptachlor epoxide Hexachlorobenzene Hexachlorocyclopentadiene Lindane Methomyl Methoxychlor Metolachlor Metribuzan Oxamyl vydate Pentachlorophenol Pichloram Polychlorinatedbiphenyls Propachlor Simazine Toxaphene 2,4 -D 2,4,5-TP (Silvex) 3-Hydroxycarbofuran</p>	<p><b>Principal Organic Contaminants</b> (Otisco, Ontario, Skaneateles)</p> <p>Benzene Bromobenzene Bromochloromethane Bromomethane N-Butylbenzene sec-Butylbenzene tert-Butylbenzene Carbon Tetrachloride Chlorobenzene Chloroethane Chloromethane 2-Chlorotoluene 4-Chlorotoluene Dibromomethane 1,2-Dichlorobenzene 1,3-Dichlorobenzene 1,4-Dichlorobenzene Dichlorofluoromethane 1,1-Dichloroethane 1,2-Dichloroethane 1,1-Dichloroethene cis-1,2-Dichloroethene trans-1,2-Dichloroethene 1,2-Dichloropropane 1,3-Dichloropropane 2,2-Dichloropropane 1,1-Dichloropropene cis-1,3-Dichloropropene trans-1,3-Dichloropropene Ethylbenzene Hexachlorobutadiene Isopropylbenzene p-Isopropyltoluene Methylene Chloride MTBE n-Propylbenzene Styrene 1,1,1,2-Tetrachloroethane 1,1,2,2-Tetrachloroethane Tetrachloroethene 1,2,3-Trichlorobenzene 1,2,4-Trichlorobenzene 1,1,1,-Trichloroethane 1,1,2,-Trichloroethane Trichloroethene Trichlorofluoromethane 1,2,3,-Trichloropropane 1,2,4-Trimethylbenzene 1,3,5-Trimethylbenzene Toluene Vinyl Chloride o-Xylene m-Xylene p-Xylene</p>	<p><b>Inorganic Contaminants</b> (Otisco, Ontario, Skaneateles)</p> <p>Antimony Arsenic Beryllium Cadmium Cyanide Iron Mercury Selenium Silver Thallium</p>
		<p><b>Inorganic Contaminants</b> (Ontario, Skaneateles)</p> <p>Lead Manganese Nitrite Zinc</p>
		<p><b>Inorganic Contaminants</b> (Otisco, Skaneateles)</p> <p>Chromium</p>
		<p><b>Inorganic Contaminants</b> (Otisco)</p> <p>Nickel</p>
<p><b>Synthetic Organic Contaminants</b> (Otisco, Ontario)</p> <p>Di(2-ethylhexyl)phthalate Diquat Endopthall 2,3,7,8-TCDD (Dioxin)</p>		<p><b>Physical Characteristics</b> (Otisco, Ontario, Skaneateles)</p> <p>Color Odor</p>
		<p><b>Radiological Contaminants</b> (Ontario)</p> <p>Gross Alpha Gross Beta Radium 226 Radium 228</p>

The frequency that various contaminants are tested for is regulated by the State and can vary from source to source. The State allows for some contaminants to be tested for less than once a year because the concentrations of these contaminants do not change frequently. Some of our data, though representative, is more than one year old. Some contaminants are monitored at the various sources more often than required.
