OCWA's Unregulated Contaminant Monitoring Rule 4 (UCMR4) Sampling

In 2019, the Onondaga County Water Authority was required to participate in UCMR4. OCWA was required to collect entry point samples from each water source as well as various distribution points representative of all three sources. These samples were then analyzed for unregulated contaminants including: ten Cyanotoxin Chemicals, two Metals, eight Pesticides and one Pesticide Manufacturing ByProduct, three Brominated Haloacetic Acid Groups, three Alcohols, three Semivolatile Chemicals, and two Indicator Parameters from source waters.
